Great Tit. Adult. Male (06-I).

**GREAT TIT (Parus major)**

**IDENTIFICATION**
12-14 cm. Black head and throat, with a white patch on cheek and nape; yellow underparts, with a black band; greenish upperparts; wings with one pale bar.

**SEXING**
Male with head and throat bright bluish-black; breast and belly with a wide black band. Female with head and throat dull black; breast and belly with a narrow black band. Juveniles cannot be sexed using plumage pattern.

**SIMILAR SPECIES**
Recalls a Coal Tit which is smaller, lacks a black band on breast, has greyish upperparts and two white bars on wing.
Great Tit. Sexing. Pattern of breast: left male; right female.

AGEING
3 age groups can be recognized:
**Juvenile** with very dull yellow and black colours; yellowish cheek patch without complete black border along lower edge; underparts with poorly developed dark band.

**1st year autumn/2nd year spring** with moult limit between moulted greater coverts, with bluish edges, and **juvenile** primary coverts, with greyish edges; some birds with moult limit within tertials or between tertials and secondaries.

**Adult** with all wing feathers with bluish edges, without moult limits.

MOULT
Complete **postbreeding** moult, usually finished in October. Partial **postjuvenile** moult involving body feathers, lesser, median, inner greater coverts (usually all) and some tertials; some birds extend the moult to all alula feathers, to none, some or all tail feathers and to some inner secondaries; usually finished in September.

STATUS IN ARAGON
Resident. Widely distributed throughout the Region, absent only from the highest areas of the Pyrenees and the most deforested zones of the Ebro Basin.
Great Tit. Adult. Female (08-IV).

Great Tit. Juvenile (18-VII).

Great Tit. 1st year. Male (07-X).

Great Tit. 1st year. Female (07-X).

Great Tit. Adult. Head pattern: top male (06-I); bottom female (08-IV).

Great Tit. Head pattern: top 1st year male (07-X); middle 1st year female (07-X); bottom juvenile (18-VII).
Great Tit. Adult. Breast pattern: left male (06-I); right female (08-IV).

Great Tit. Breast pattern: top left 1st year male (07-X); top right 1st year female (07-X); left juvenile (18-VII).

Great Tit. Adult. Nape pattern: left male (06-I); right female (08-IV).

Great Tit. Nape pattern: top left 1st year male (07-X); top right 1st year female (07-X); left juvenile (18-VII).

Great Tit. Adult. Underparts pattern: left male (06-I); right female (08-IV).
Great Tit. Underparts pattern: top left 1st year male (07-X); top right 1st year female (07-X); left juvenile (18-VII).

Great Tit. Tail pattern: top left 1st year male (07-X); top right 1st year female (07-X); left juvenile (18-VII).

Great Tit. Adult. Tail pattern: left male (06-I); right female (08-IV).

Great Tit. Adult. Upperparts pattern: left male (06-I); right female (08-IV).
Great Tit. Upperparts pattern: top left 1st year male (07-X); top right 1st year female (07-X); left juvenile (18-VII).

Great Tit. Adult. Female: pattern of wing (08-IV).

Great Tit. 1st year. Male: pattern of wing (07-X).

Great Tit. Adult. Male: pattern of wing (06-I).

Great Tit. 1st year. Female: pattern of wing (07-X).
Great Tit. Juvenile: pattern of wing (24-VI).
